DETAILED ACTION

This Office Action is in response to the RCE filed 15 October 2002.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1-22 are indefinite because they are referring to a first semiconductor layer with a plurality of first conductive type semiconductor regions formed on a surface of the semiconductor layer where the second conductive type layer surrounds the first semiconductor regions with portions of the semiconductor layer therebetween. It is unclear how the structure of the light-receiving device will be formed when the second conductive type semiconductor region is formed on the surface of the first semiconductor layer and surrounds the plurality of first semiconductor regions that are formed in the first semiconductor layer. The limitations are unclear and therefore do not clearly distinguish the invention.

Response to Arguments

Applicant's arguments with respect to claims 1-22 have been considered but are moot in view of the new ground(s) of rejection. The amendment filed 10 September

2002 has been noted but the claims are still vague and indefinite in regards to the first semiconductor layer and the first and second conductivity type regions and how the second semiconductor region is formed on the first semiconductor layer and the first semiconductor regions are formed being formed apart from each other with the first semiconductor layers being formed between the first and second semiconductor regions.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kiesha L. Rose whose telephone number is 703-605-4212. The examiner can normally be reached on M-F 8:30-6:00 off 1st Friday.
